

**Date:** 16 October 2023  
**From:** Ben Ferreira, Diocesan Manager  
**RE:** 2023 Mileage Rates

### Background

An external group produces mileage rates annually for the diocese and these have been distributed for the 2023 / 2024 year. They are as below:

### Rates Update July 2023

Motor vehicle costs increased by around 11%. The major components of this were higher insurance premiums, higher interest rates, higher car prices, higher tyre prices and higher petrol prices. The petrol price allowed for the recent removal of the 25 cents discount on the Fuel Excise Duty.

Many of the above increases can also be traced back to the Covid 19 pandemic, from labour shortages, supply chain issues and still adjusting to bottlenecks and shutdowns worldwide.

**The suggested (maximum) reimbursement rates are as follows**

	Petrol/Diesel	Hybrid	Electric
Up to 14,000km	88	88	88
Up to 20,000km	72	42	32
Up to 26,000km	63	32	21
Beyond chosen band	34	20	15

Alternatively, the flat rate of 49 cents (47 cents in 2022) per km can be paid for unlimited running (i.e., without the need to record annual mileage and be concerned about exceeding a chosen band). This is based on the above rates and annual mileage of 75,000kms to cover all eventualities.
